

ORM FERTILITY

FERTILITY MILESTONE TIMELINE

A snapshot of fertility care history and ORM's journey to turning 30!

KEY:
— ORM milestones
— Fertility care milestones

1978

First IVF baby born
**Louise Brown*

1981

First IVF baby born in the U.S.
**Elizabeth Carr*

1983

First baby born from egg donation

1988

First IVF surrogate birth
First baby born using donor sperm

1991

First ORM LGBTQ patient

1980

Preimplantation Genetic Diagnosis (PGD) introduced to identify genetically abnormal embryos

1982

First IVF twins born

1984

First baby born using a frozen embryo

1989

Dr. Robert Matteri establishes Portland Center for Reproductive Medicine (PCRM), now ORM Fertility

1995

Elective single-embryo transfer

1999

Dr. John Hesla joins ORM

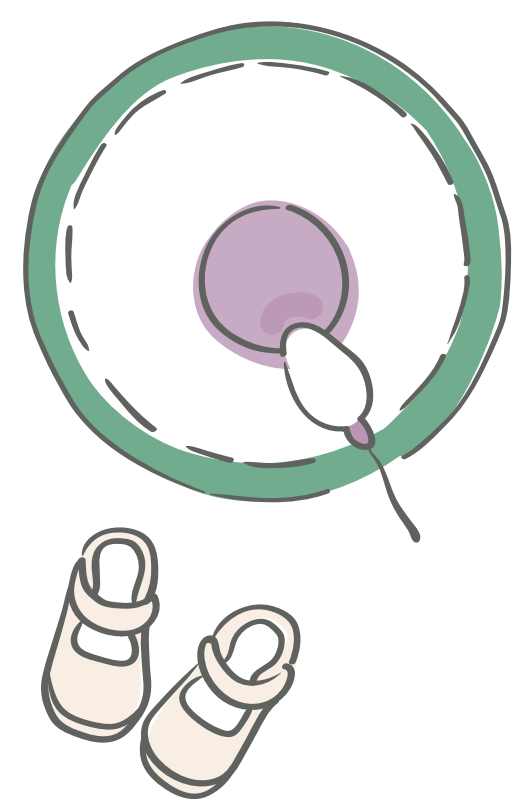

ORM's first Lab opens, built by Dr. John Hesla and Dr. Alison Coates, PhD

First egg donor cycles at ORM

Preimplantation genetic screening is introduced

2000

- » First ORM twins conceived
- » First ORM IVF baby born
- » First ORM surrogacy cycle
- » First day-3 embryo biopsy for PGT-A

2005

Dr. Brandon Bankowski joins ORM

In-House Egg Donor program launches

2007

PCRM becomes Oregon Reproductive Medicine (ORM)

ORM's first egg freezing patient

ORM switches from slow freezing (65% survival) to vitrification (97% survival) for embryo freezing

2009

Dr. Elizabeth Barbieri joins ORM

ORM opens its Westside Portland clinic

2008

ORM ceases day-3 embryo transfers or freezes, moves to transfer and freeze on day 5

2010

- » First trophoctoderm biopsy
- » First Counsyl screen performed

2013

Dr. Amanda Hurliman joins ORM

2012

Egg freezing approved for fertility preservation by FDA

Counsyl screens performed on all egg donors

2014

ORM Israel team established in Tel Aviv

ORM sponsors Portland's LGBTQ Pride Festival

ORM launches ORM Genomics Website

2015

ORM Downtown opens in Portland, featuring state-of-the-art fertility center with expanded embryology laboratory and comprehensive services

2015

ORM Genomics team publishes study validating next-generation sequencing for chromosome embryo screening

ORM establishes team in London, UK

2016

- » ORM Israel opens office in Tel Aviv
- » ORM launches patient portal
- » Use of new technique, CRISPR*, to edit embryonic gene *prohibited in the U.S.
- » In-house integrative medicine and acupuncture program launched

2017

Dr. Thomas Fisher joins ORM

ORM named Nursing Center of Excellence

Dr. Shannel Adams joins ORM

2017

ORM Genomics team publishes study comparing fresh vs. frozen embryo transfers, receives SART award

ORM opens office in Shanghai

2018

ORM opens its Southside Portland clinic

2018

ORM launches online Learning Center for patient education

JANUARY 2019

Oregon Reproductive Medicine becomes ORM Fertility, announces newest clinic in Bellevue, Washington, and newest team member, Dr. Jamie Massie
